

LOCOMOTIVE BLASTS.

The Henderson division was inspected by the chief officials of the L. & N., this week. Of course, we expect to hear a good report of the condition of the road. In fact, with but few exceptions, we should be classed at the head.

We understand when the new depot is occupied that the day operator will be relieved of the freight billing and that the yard crew will attend to that at an office fitted up for them in the old depot.

Construction of bridges and buildings, Gen. McVay, came down last week to inspect the new depot and found the work being done according to contract and in first class workmanship order.

The result of the election was so pleasing to railroads and the business interests they depend on that not even a check was noticed. Everything moved off smoothly, full confidence in the present administration being manifest on all sides.

Operator Morris, late of Alabama, is here now as night operator.

Harry Ogden, formerly agent at Slaughters, is back from the West to stay and rumors say he will soon take charge of a new bank in Webster county.

The report is out that the prize for the best section on the Henderson division lies between the Cates brothers; one at Sebree and the other at Kelley's, but the inspectors may see different.

PASSED RESOLUTIONS.

Coal Miners at Morton's Gap Say "Mine Workers' Can't Run Their Business."

SATISFIED WITH PRESENT CONDITIONS.

Do Not Propose to be Prevented From Making Living for Wives and Children.

At a meeting of the miners of Morton's Gap, in the employ of the St. Bernard Coal Company, determined resolutions were passed relative to the threat that is being made by officials of the United Mine Workers to interfere, if they can, with the prosperous and harmonious condition of the mining industry and satisfactory relations of coal miners and operators of Hopkins County.

The tone of these resolutions is of a decided character that is not hard to understand if one can read English, and is reflected by the public sentiment daily expressed in Earlinton by miners and by business men who have no connection with the coal business. The truth is that the conditions have not changed since 1894 and 1897 except for the better and the coal miners and operators and the public generally are stouter and bitterly opposed to interference with the prosperous conditions of the coal industry of the county by outside parties who are paid agitators.

Here are the resolutions:

We, the miners of the St. Bernard Coal Company, having been threatened by an unprincipled Order known as the Mine Workers that unless we quit work and live on \$4 cents per week they would force us to do so; inasmuch as we are living in a country that gives equal rights to all, we therefore

RESOLVE: That we do not intend to be intimidated by any Mine Workers. Be it further

RESOLVED: That should they attempt to prevent us from making an honest living, we will work and fight until we can meet with a warm reception. We expect to continue work for the St. Bernard Coal Company, regardless of what any man or set of men may say, as long as we get the kind treatment that we have always received from them, and must not be molested by any set of idlers.

A fallacy which, when barely stated in a few sentences would not deceive a child, may deceives half the world if diluted in a quarto volume.—Whately.

HEADACHE

Pain back of your eyes? Heavy pressure in your head? And are you nervous and irritable? Is your tongue coated? Is bad taste in your mouth? And does your food distress you? Are you nervous and irritable? Do you often have the blues? And are you troubled about sleeping?

REPLY TO CRITICISMS.

Our Battery Better than That of Any Other Army Operating in China.

Washington, Nov. 20.—Some disparaging criticisms upon the American field gun, as exhibited in the Chinese field, led Adj.-Gen. Corbin to address the following inquiry to Gen. Chaffee:

"Adjutant General's Office, Nov. 15, 1900.—Chaffee, Peoria: Assured our light artillery guns did not need all requirement of service except with other armes. What are the facts?"—"CORBIN."

The following response has been received:

"Adjutant General, Washington, Nov. 16.—Replying: Your No. 72, battery better than battery of any other army in campaign. German battery just arrived has some features which are very good. Range is longer, fire with trigger like pistol. More rapid fire, etc. Brake arrangement also better. Caliber of gun not quite so large. Our battery highly regarded particularly by Gen. Chaffee, who said to me, 'I would off his hat when ever he saw it. No battery so effective as ours in attack on Pekin.' CHAFFEE."

TO PACIFY THE BOERS.

Lord Kitchener Has Decided to Put Lord Roberts' Reconnoitred Plan in Operation.

Durban, Nov. 18.—The Natal Mercury reports that among the measures to be adopted in order to pacify the Boers, the reconnoitred plan of Lord Roberts is to be followed. Lord Roberts' reconnoitred plan has decided to take this step owing to the difficulty of dealing with the armed Boers while hampered by the civilian population in the outlying small towns.

ORDERS FOR ENLISTMENTS.

Men Wanted for All Branches of the Service, Especially Cavalry For the Philippines.

Cheyenne, Wyo., Nov. 18.—The United States army recruiting office in this city has issued an order calling for as many men as possible for all branches of the service, with especial directions to procure recruits for cavalry service in the Philippines. The enrollment here number forty to fifty per month.

BANK ROBBERS AT BLUFF, ILL.

The Vault of the Bank of Bluff, Ill., Blown and Robbed of Two Thousand Dollars.

Quincy, Ill., Nov. 18.—The vault of the bank of Bluff, Scott county, was blown open by two men, who reported several thousand dollars stolen on a horse car to Chapin, where they stole the horse and buggy of the town marshal and drove northward.

JONES HELD UNDER BOND.

Violet Jones Committed to the New York House of Detention in Default of Bail.

New York, Nov. 17.—Charles F. Jones, valet of the late millionaire Wm. Rice, who with Lawyer Patrieck, had been held in custody for three weeks with forged warrants, before the Recorder, Govt., and, on motion of the district attorney, committed to the house of detention. His bond was fixed at \$3,000.

THURSDAY, NOVEMBER 22, 1900.

AFTER the election the people in this neck of the woods were glad enough to forget politics for a while and devote their attention exclusively to business and to their home affairs.

One newspaper says the visit of the war-ship "Kentucky" to Smyrna on her way to the Philippines is to be regarded as a show of teeth to the Sultan in connection with our claim for indemnity. What greater battlefield with so great a fighting name could have been selected?

The public of Hopkins county believes in the enforcement of a policy of non-interference in the satisfactory labor conditions of the great coal mining industry of the county. They would rather see the miners work 800 days in the year and draw \$70.00 a month in wages than to see the harmonious conditions demoralized and the miners periodically on strike by order of a paid organizer.

The pay rolls of the coal companies of Hopkins county aggregate about \$70,000 a month at this season and this is paid as promptly and as surely as the months roll round. Wouldn't it be pretty cheeky to ask the miners of Hopkins county to give up this sum \$70,000 a month for an uncertain and varying pitfawne in some instances to have been as low as 12 cents a week to 80 cents a week.

EARLINGTON's increase of population since 1890 is very flattering and shows how the business of the people of the city has prospered and increased during the past ten years. The percentage of increase in Earlinton and that in Hopkins county are among the most phenomenal of increases shown by the official census for any city and county in the State of Kentucky. Both are most largely the result of the prosperous and satisfactory condition of the increased coal industry of the county and the harmonious relations of miners and mine owners in the county.

The United Mine Workers with President Mitchell at the head announce that they propose to take charge of the coal business of Hopkins county forthwith. As none of the said United Mine Workers are owners of any of the coal properties in the county, and as the real owners of these properties are well satisfied with the present management, the public can rest assured there will be no change. As the coal business of the county has been conducted for thirty years without having to call on foreigners from Indiana or Central City for aid, it will still be conducted without their assistance.

The Kentucky Campaign. In his interview in Washington, Mr. Yerkes said:

You ask whether the campaign was well conducted in Kentucky. In my judgment no campaign was ever more manly, more courageous, sagacious than that marked the course of our State campaign. Mr. Bryan and his supporters were far braver than the regular summer troops. I am sure this special

by the Democrats who were for Bryan, though opposed to Gobell, the machine can grind out only a plurality of 3,000. Had that not been done in the precincts it would have been done by the County Boards or by the State Boards.

Every precinct board, every county board and the State Board were all Democratic operating under a law which Mr. Blackburn said would insure one thing, that was that if stealing were done it would not be done by the Republicans.

But aside from that we have as a result of the campaign a Republican majority in Louisville of over five thousand; a city which, prior to 1895, was always Democratic, and which in 1897 elected a Democratic Mayor.

The Republicans cut down the Democratic vote in the western part of the State and increased the Republican vote in the eastern portion, electing Judge O'Rear and gaining three Congressmen. We know the county boards hope to give certificates to three defeated candidates, but it will not avail. In the next Congress Republicans will represent the Third, Fifth, Ninth, Tenth and Eleventh districts.

Chairman Combs has a right to be proud of him. A new spirit has breathed over the Republican party of Kentucky, and it has become the hope of the liberal element and the progressive element of our young men. If that same spirit should animate the Republican party of the country in its dealings with the South the Kentucky campaign of 1900 would mark a new era in American politics.—Louisville Evening Post.

SCHOOL ROOM

Will be Made Warmer at Once—Ceiled with Building Paper.

The School Trustees request for the ceiling of Assembly Hall, which is now our public school room, with building paper, in order to prevent the too rapid escape of warmed air and consequent chilling of the children. During the few frosty days we have had it was found difficult to keep the room warm. W. A. Toombs has charge of the work and his love for the children insures that he will make as thorough a job of it as the circumstances will permit. Building paper will be used and strips will be tacked over the lapped edges. It is believed this is the quickest and most satisfactory way to remedy the defect.

Profitable Timber Growing.

Washington, D. C. Nov. 21.—Among the applications for advice and assistance in managing woodlands which have recently been received by the Division of Forestry of the U. S. Department of Agriculture is one from the Great Northern Paper Company of Maine. This company owns a tract of 300,000 acres on the Penobscot and Kennebec rivers, chiefly spruce land. It is undertaking to lumber in such a manner that the same acres can be cut over repeatedly with good profit, and is making use of the aid and advice of trained foresters in order that its estimates and the plans and methods which it adopts may be reliable and best adapted to the ends in view.

The surveys and measurements on which the Division of Forestry will base the working plan to be submitted to the company will probably be begun next spring.

Special School Examinations.

SITE FOR TEMPLE

Committee of Kentucky Masons Has Two Lots in Mind.

Louisville, Ky., Nov. 10.—The sub-committee of Masons, to which was left the selection of a site for the new Masonic building, in considering a lot on Chestnut street, between Third and Fourth, which is now the property of the Polytechnic Society, the lot has a frontage of 150 feet and extends back 180 feet. It is intended to begin the erection of a seven-story building as soon as a lot is purchased. The building is to cost \$100,000, exclusive of the lot. The only other lot under consideration is on Fourth avenue, just opposite the Rossomore.

Scold Col. Chin.

A dispatch from Irvine says that Col. Jack Chin was hauled over the coals during the fox hunt there last week by Miss May Irene Baxter, of Nashville. The story is that Miss Baxter was riding with Chin in the fox hunt, and, on reaching a steep declivity, she dismounted and walked her horse, and later remounted nimbly.

Col. Chin did not offer to assist her, and for this, it is said, she declared him ungentlemanlike and said he had lost all faith in Kentucky chivalry. Col. Chin, in speaking of the matter, said he saw no reason for Miss Baxter to dismount, as the other riders did not. Miss Baxter is the daughter of a Tennessee railroad magnate.

Does It Pay to Buy Cheap.

A cheap remedy for coughs and colds is all right, but you can sometimes find that will relieve and cure the disease, and yet not cure the throat and lung troubles. What shall you do? Go to a warmer and more temperate climate? Yes, if possible. But if you cannot go in either case take the only remedy that has been introduced in all civilized countries with success in recent years—Boschek's German Syrup. It not only heals and stimulates the body to defend the glands against the various diseases, but it also relieves the mind from easy expectation gives a good night's rest, and cures the patient. Try it.

Half Cent Are Wanted.

The coinage of the half cent is being demanded from numerous quarters. In the early history of the country this coin did not seem to be needed. Business had not reached the degree of division and specialization that rendered it useful. In all new countries, where resources have to be developed, there is a disregard for detail and of small things. As civilization progresses and population increases the trading and everyday business is done on finer lines.

Story of a Slave.

To be bound hand and foot for years by another of disease is a sad form of slavery. George D. Williams, of Manchester, Mich., tells how such a slave was made free. His master had been so helpless for three years in bed that he could not turn over in bed alone. After using two bottles of Electric Cough Syrup he was able to sleep and able to do his own work." This supreme remedy for female diseases quickly cures nervousness, sleeplessness, headache, neuralgia, rheumatism, backache, fainting and dizzy spells. This miracle working medicine is a godsend to weak, sickly, rundown people. Every bottle guaranteed. Only 50 cents. Sold by St. Bernard Drug Store.

Neuralgia Banished.

There is no more severe or stubborn pain than neuralgia. A remedy may be found in Dr. Caldwell's Syrup. Dr. G. S. Silvera, Louisville, Ky., says: "My wife suffered over two years from neuralgia, which several physicians failed to cure. She then got Morley's Wonderful Eight, which relieved her in five minutes and soon effected a permanent cure. Free trial bottles at John X. Taylor.

TO ASSURE WORLD'S FAIR.

St. Louisians Take Hold of the Money Raising for the Real Earnest at Last.

St. Louis, Nov. 21.—More than two hundred and fifty enthusiastic workers for the Louisiana Purchase exposition have joined the personnel club last night to formulate plans for committing the \$5,000,000 fund before the fall can be assured.

Pledges of more than two hundred thousand dollars were made at the meeting.

Sixty prominent business men volunteered to give one-half of their time until the fund is completed to the work of raising contributions and interests, acting under the direction of the finance committee.

Headquarters are to be opened at once in the Carlton building, at Sixth and Olive streets, where the workers and committees can meet every day to compare notes and plan further work.

All the committees will hold another joint meeting in two weeks, it is hoped that the fund may be completed.

Gen. John J. Pershing, stated at the meeting last night that unless the entire amount is raised before January 1 there will be no World's fair in St. Louis. The unanimous sentiment of the meeting was that the fund will be completed long before that time.

WE WILL HAVE NONE OF IT

The European Powers Are Evidently Bent on the Ultimate Partition of China.

UNITED STATES DOESN'T WANT ANY OF IT

The Result, is Likely to Be That We Shall Find It Difficult, If Not Impossible, to Collect Our Share of indemnity for Losses and Expenses.

New York, Nov. 21.—The China negotiations, according to a dispatch to the Times from Washington, have reached a most serious stage. The actions of the powers are making partition almost inevitable. The United States faces the probability that it will either have to take a slice of China or go without indemnity. In that case it is positively asserted by high authorities that the United States will go without indemnity.

The United States may succeed in reducing the demands of the other powers, and in saving making very difficult, if not impossible, the prospect of success.

Disavowals of the Powers.

Every nation has disavowed any intention of dismembering China, but that merely relates to dismemberment as a political question, not an outrage. No nation has pledged itself to avoid taking a course which will sooner or later make dismemberment inevitable. It is firmly believed in official circles in Washington that the Chinese will be compelled, deliberately, with the intention of bringing about a situation which will compel dismemberment.

Where the Garrison Hinges.

The whole question hinges on the amount of indemnity demanded to be demanded. While the United States has not officially set a maximum figure for the indemnity, it is unofficial opinion of some of the high officers of the government that \$500,000,000 will be the limit that China will pay. The powers are desirous of swelling the indemnity to at least twice that amount.

Two Causes Considered.

The two causes considered for the payment of the large indemnity, each is innocent on its face, but both mean partition, and the American government is so sure of it, that as soon as the powers adopt either course, they will be compelled to act accordingly. Let us trust God, that we may be spared the task of carrying out all but a faint chance of ever recovering any indemnity. Our course is to exact territorial pledges. This is the same thing as partition, for it is simply a new mortgage, which is certain to be foreclosed. The United States will not have anything to do with this scheme.

The Other Pains.

The other plan is to have China is forced to grant the indemnity. This is in the opinion of the American government, means partition just as surely as the first scheme. The bondholders would have recourse to the garnishments, who could not fulfill their guarantees, except by taking territory. The Chinese believe that to appear a thing of the distant future, but a high official of the government has recently given it as his deliberate opinion that the bond scheme would bring about partition, as soon as the other. The United States will not guarantee any bonds.

Give Up the Commandments.

How the United States can collect its indemnity if it does stay out is not clear, but it may be that the friendly give up the commandments. The United States will not, of course, submit its claim and give China a receipt in full. It will endeavor in every way possible to get its indemnity, but, if it fails, it may open in the immediate future, if the powers carry out their plans.

Only One Way to Die.

The United States has, therefore, nothing to do but get indemnity. That is by inducing the powers to reduce their demands to an indemnity which China is able to pay. The administration is hopeful of success, but so far it has made no progress, and the chances seem to be against it.

What It Has Cost Us.

The United States spent about \$20,000,000 on going to Pekin, and this did not do any damage to property or morale. The cost of \$10,000,000 to \$20,000,000. But the other powers are actively swelling their expenses as much as possible.

RAINY SEASON IS ENDED.

Considerable Increase in American and Insurgent Activity in the Philippines.

NUMEROUS SKIRMISHES LAST WEEK.

The Americans have begun a series of aggressive movements, notably upon the island of Samar. Letter from Lt. Alister, a prisoner of the Filipinos, asking supplies.

Manila, Nov. 19.—Last week witnessed a very considerable increase in rebel and American activity in the field. Many skirmishes occurred and several small engagements in northern and southern Luzon. The terminals of operations on both sides.

Series of Aggressive Movements.

The Americans are undertaking a series of aggressive movements against the insurgents, notable upon the island of Samar, where the rebels, under Lukban, whose forces hold the entire coast towns, each of which is garrisoned by two companies of the Twenty-eighth Infantry and a platoon of artillery.

Skirmishes at Gariapan Tawas.

The rebels are continually shooting into the garrisoned towns, and our forces have not been sufficient to repel them. Considerable numbers have been killed, and most of the influential inhabitants have departed, with 250 men. "He will bring eight companies of the Twenty-eighth Infantry from Manila to reinforce the rebels, who may be needed to proceed.

Lukban still holds three members of the Forty-third regiment prisoners.

The Marinduque Garrison.

All of the Marinduque garrisons are being continued. The Fourteenth Infantry, recently returned from China, will relieve the Twenty-first garrison in the fortifications in northern Luzon, and the Eighty-first in southern Luzon, to be succeeded by the Twenty-eighth.

The Twenty-eighth will reinforce the garrison in the island of Mindanao, particularly that at Zamboanga, who have been true to the rebels for months past.

SENATORIAL DISTRICTS

Great Unfairness in These Divisions of the State Politically.

SOME REPUBLICAN DISTRICTS ENORMOUS.

Number of Democratic Districts Much Below Average in Population.

(Louisville Evening Post.)

The population of the 119 counties of Kentucky is 2,147,474. By law there can be but thirty-eight Senatorial districts. Therefore, the proper apportionment should be, in round numbers, 58,500 citizens to a district. In a few districts the natural growth since 1880 has brought the total population to within a few hundred or thousand of this figure, but for the most part the districts, from the standpoint of population, are either very much too small, or very much too large. As might have been expected, the very small districts are Democratic without exception, while the very large districts are in the Republican strongholds, and yet a small Democratic district gets equal representation with a large Republican district.

The districts, with the counties composing them, are as follows:

First District—Fulton, Hickman and Graves, always Democratic (normal)..... 58,486

Second District—Cracker, McRae, Ballard and Carlisle, always Democratic (too large)..... 63,881

Third District—Lyon, Livingston, Caloway and Trigg, always Democratic (almost normal)..... 62,376

Fourth District—Caldwell, Crittenden, and Webster, generally Democratic, but apt to go Republican next year (normal)..... 53,786

Fifth District—Henderson and Union, always Democratic (normal)..... 54,288

Sixth District—Christian and Hopkins, formerly Democratic, but apt to be Republican in future (too large)..... 68,967

Seventh District—Ohio, Muhlenberg and Butler, reliably Republican (too large)..... 63,914

Eighth District—Dayles and McLean, always Democratic (a little under normal)..... 51,118

Ninth District—Logan, Simpson and Todd, usually Democratic (normal)..... 54,989

Tenth District—Breckinridge, Hancock and Meade, Democratic (normal), but now generally Republican (much too small)..... 39,981

Eleventh District—Warren, Allen and Edmonson, formerly Democratic; has gone Republican once, and is now doubtful (normal)..... 54,707

Twelfth District—Hardin, Grayson and Buellitt, relatively Democratic (normal)..... 64,417

Thirteenth District—Hart, LaGrange and Green, safely Dem-

ocratic when created, but now doubtful (much too small)..... 41,409

Fourteenth District—Nelson, Shelby and Spencer, safely Democratic (much too small)..... 42,933

Fifteenth District—Marion, Washington and Taylor, safely Democratic (much too small)..... 41,547

Sixteenth District—Clinton, Cumberland, Adair, Russell and Wayne, safely Republican (about normal)..... 56,938

Seventeenth District—Paducah, Pulaski, Bell, Whitley, Knox, Jackson and Rockcastle, heavily Republican (more than twice the normal size, and almost as large as the Eighth Congressional district)..... 126,960

Eighteenth District—Lincoln, Boyle, Garrard and Casey, Democratic (about normal)..... 58,022

Nineteenth District—Barren, Metcalfe and Monroe, Democratic (when created, but now somewhat too small)..... 46,248

Twentieth District—Anderson, Franklin and Meade, Democratic (much too large)..... 45,929

Twenty-first District—Henry, Oldham, Carroll and Trimble, always Democratic (much too small)..... 38,895

Twenty-second District—Woodford, Scott and Jessamine, always Democratic (large too small)..... 49,136

Twenty-third District—Boone, Gallatin and Owen, always Democratic (much too small)..... 43,898

Twenty-fourth District—Kentucky, always Democratic (above the normal)..... 43,591

Twenty-fifth District—Campbell, formerly Democratic now close (about normal)..... 54,223

Twenty-sixth District—Bracken, Pendleton and Grant, always Democratic (much too small)..... 45,418

Twenty-seventh District—Mason and Lewis, formerly Democratic (much too small)..... 42,071

Twenty-eighth District—Owsley and Bourbon, Democratic (very much too small)..... 35,903

affairs about, as the Sixth, when created by a Democratic Legislature was, like most of its fellows, undersized.

There is not a single original or absolutely safe Republican district that is undersized.

The districts rated as normal are the First, Third, Fourth, Fifth, Ninth, Eleventh, Twelfth, Sixteenth, Eighteenth, Twentieth and Twenty-fourth. All except the Sixteenth are ordinarily Democratic.

Look! A Stitch in Time

Saves a life. Hughes' Tonic now improved, tastes pleasant, taken in the early Spring and Fall prevents Chills, Dengue and Malaria Fevers. Acts on the Liver to cleanse the system. Better than Quinine. Guaranteed. Try it. At druggists, 50c and \$1.00 bottles.

Umbrellas are great bluffers. It's a case of put up or shut up with them.

After exposure or when you feel a cold coming on, take a glass of HONEY and TAR. It never fails to cure, and will prevent pneumonia or consumption if taken in time.

Pan-American Exposition Emblem.

The official emblem of the Pan-American Exposition, which was designed by Raphael Beck, a Lockport artist, and was accepted as the most artistic and suitable of several hundred designs submitted, has the especial merit of effectively symbolizing one of the chief purposes of the Exposition,

which is to bring into closer social and trade relationship the republics, states and territories of North and South America. The emblem shows a fair maiden typifying the North, extending a kindly hand to clasp that of her Brunette sister of the South, thus forming a bond of continental sisterhood and establishing a unity of sentiment and interests between the countries of the Western Hemisphere.

For Malaria, Chills and Fever

THE BEST PRESCRIPTION IS

Grove's Tasteless Chill Tonic.

The formula is plainly printed on every bottle—hence you know just what you are taking when you take Grove's. Imitators do not advertise their formula knowing that you would not buy their medicine if you knew what it contained. Grove's contains Iron and Quinine put up in correct proportions and is in a Tasteless form. The Iron acts as a tonic while the Quinine drives the malaria out of the system. Any reliable druggist will tell you that Grove's is the *Original* and that all other so-called Tasteless Chill Tonics are imitations. An analysis of other chill tonics shows they are not experimenting when you take Grove's—it is the only Chill Cure sold through
